------------------	---	------	--------

AGENAFLO 9050 is a hydrophobically modified waxy corn starch. It is a white / off white powder which gives a distinctive powdery feel to a variety of formulation types.

AGENAFLO 9050 is a lipophilic starch and a **Al-free replacement for INCI Aluminum Starch Octenylsuccinate**.

PROCEDURE

1. Mix phase A in order until homogenous.
2. Add phase B to phase A mixing until homogenous.

SPECIFICATION
