THE *Ingredients* FOR YOUR SUCCESS

FRUIT, STARCH and SUGAR – in these three segments AGRANA is successfully active around the world. Our extensive knowledge, market know-how and wide-ranging expertise is shared with our valuable partners. AGRANA not only refines agricultural raw materials to produce a range of industrial products, we also develop and realize together with our customers the most relevant and consumer focused creations.

OUR RAW MATERIALS ARE REFINED IN HARMONY WITH NATURE.

AGRANA is an international company headquartered in Austria, which is known for love of life, commitment to sustainable agriculture and caring for the world. These elements define who we are. Ultimately, they make their way into our business operations and ecological footprint. We promote the processing of pure, organic products and genetically unmodified resources. We rely on the use of low-emission technology and make use of nearly 100% of the agricultural raw materials processed to omit food waste.

EVERYTHING FOR YOU from a single source

Benefit from our bountiful resources. As an international leader in fruit, starch and sugar we offer tailor-made solutions meeting your needs and requirements.

AGRANA FRUIT offers a variety of fruit, brown flavor and specialty solutions for the food and beverage industry. With our global network of R&D experts, we capture “what’s next” and launch over 1,000 new innovative products every year. AGRANA Fruit has long-term relationships with customers in the food and beverage industry and a passion for delicious and thoughtfully crafted solutions.

AUSTRIA JUICE is one of the leading manufacturers of innovative flavor concepts and high-quality food & beverage ingredients. With a comprehensive product portfolio consisting of customized beverage compounds, flavors, fruit wines and fruit juice concentrates, Austria Juice has established itself as a specialist for individual business-to-business solutions in the global food and beverage sector.

AGRANA STARCH processes corn, potatoes and wheat – focusing on organic and Non-GMO raw materials – into high-quality starch specialities. The relationship with our customers is based on product development and application partnerships. Our commitment to highest quality standards makes us a valued partner for many categories including infant formula manufacturers.

AGRANA SUGAR, the prominent Central and Southeastern European sugar company, supplies local producers as well as large international corporations, especially in the food industry. The wide range of high-quality sugar, also in the organic sector, ensures the right level of sweetness in a wide variety of savory products.
